Direct Payments

Angelcare are dedicated to helping you understand any financial benefits you may be able to apply for and how to access this in order to receive not only the care you deserve but also the financial assistance you are entitled to.

These payments can give you the freedom to choose a care provider and pay for the services you need, so alternatives to the conventional care that your local authority typically provides become available.

The local authority may only offer you aid for personal care or assistance with meal preparation. With Direct Payments, this may exceed this level of support, offering you support for shopping or companionship.

You can only stipulate Direct Payments if you've been assessed by social services as needing care and support services.

How much will I receive?

If you or someone in your care is looking for or receives assistance from social services, you can apply for direct payments.

The direct payment amount you will receive will depend on the level of support you need, however the current rate for the Swansea area in 2026 is around £16 per hour.

With Angelcare rates in 2026 currently at £30.50 per hour, you would be looking at saving around half of the cost of private care, if you were eligible to receive support for Direct Payments.
